Professional Summary

AI Engineer with 5+ years of experience designing and deploying end-to-end Generative AI solutions. Specialized in **RAG systems**, **Agentic AI**, **Generative UI**, and production-grade LLM integration. Strong Full-Stack background (Python, React/Next.js) enabling delivery of complete AI products — from model to user interface. **66+ technical certifications** (AWS, Microsoft, Google, Oracle, IBM, MongoDB, Neo4j). Master's degree in Management Engineering focused on Digital Transformation with thesis on Generative UI and RAG systems.

Professional Experience

Independent Consultant

Rome, Italy

AI Engineer & Full-Stack Consultant

Jan 2020 – Present

Technical lead for AI architecture and end-to-end software development for clients in **E-commerce**, **FinTech**, and **IoT** sectors.

- **Agentic AI & Generative UI:** Designed an OmniApp powered by autonomous AI agents and Generative UI, dynamically rendering React components in real-time via LLMs (LangChain, Vercel AI SDK). Multi-agent orchestration with fallback handling and response streaming, **reducing UI development time by ~40%**.
- **Enterprise RAG Systems:** Built vector-based (Pinecone, ChromaDB) and hybrid (BM25 + embedding) RAG pipelines with iterative disambiguation. **Reduced hallucinations by ~30%** on enterprise chatbots indexing 50K+ documents.
- **Full-Stack Platforms:** Delivered 5+ enterprise dashboards (React + Redux) and high-performance backends (Python FastAPI/Django). E-commerce and IoT platforms achieving **response times <800ms** through multi-layer caching (Redis + CDN).
- **Legacy Modernization:** Led migration of COBOL codebase (~50K LOC) to Python, leveraging AI-assisted translation to **accelerate rewriting by ~60%**.
- **AI-Augmented Development:** Daily use of GitHub Copilot, Cursor, Claude Code, and LLM-based tooling for development, debugging, and automated test generation.
- **DevOps & Cloud:** CI/CD pipelines (GitHub Actions), Docker/Kubernetes containerization, deployments on Azure and AWS. OWASP compliance for enterprise applications.

Key AI Projects

OmniApp GenUI: Generative UI application with AI agents rendering React components in real-time. Stack: Next.js, Vercel AI SDK, LangChain, GPT-4. *Reduced time-to-feature by 40%.*

Enterprise RAG: Semantic search system for 50K+ enterprise documents. Hybrid architecture (vector + BM25) with iterative disambiguation. *+30% accuracy vs. pure keyword search.*

IoT Dashboard: Real-time industrial IoT monitoring platform. React + FastAPI + WebSocket + TimescaleDB. *Processing 10K+ data points/sec with <200ms latency.*

Technical Skills

AI & GenAI: LLM Integration (OpenAI, Anthropic, LangChain, LangGraph), Vercel AI SDK, RAG (Vector + BM25 Hybrid), Agentic AI (CrewAI, AutoGen), Generative UI, Prompt Engineering

ML & Data: Python (Pandas, NumPy, Scikit-learn, Keras), Vector DB (Pinecone, ChromaDB, Neo4j), Graph DB

Full-Stack: React.js/Next.js, TypeScript, Angular, Vue.js, Tailwind CSS, Django, FastAPI, Node.js,

GraphQL

Cloud/DevOps: AWS, Microsoft Azure, Docker, Kubernetes, CI/CD (GitHub Actions), Terraform

AI Tooling: GitHub Copilot, Cursor, Claude Code, OpenAI Codex, Windsurf

Education

Università Unimercuratorum

Italy

Master's Degree in Management Engineering – Digital Transformation, GPA: 27/30 Expected 2026

- **Research thesis:** Framework for Generative UI and embedding-free RAG for enterprise systems.
- **Publications:** 2 papers under peer review for international journals.

Università Niccolò Cusano

Italy

Bachelor's Degree in Management Engineering (L-9)

2018 – 2021

Research thesis on K-Nearest Neighbors (KNN) algorithm applications.

Certifications (Selection from 66+)

AI & GenAI: AWS Certified GenAI Developer Professional · Azure AI Engineer Associate · Oracle OCI GenAI Professional · IBM Build Multimodal GenAI Apps · Oracle Fusion AI Agent Studio

Data & ML: IBM Data Science Professional · Oracle OCI Data Science Professional · Neo4j Graph Data Science · Google Data Analytics

Cloud: Oracle OCI 2025 Foundations Associate · Oracle OCI AI Foundations Associate

Database: MongoDB Associate Developer · Oracle AI Vector Search Professional · Neo4j Certified Professional

Security: Google Cybersecurity Professional · Microsoft AI & ML Foundations

Full list of 66+ certifications available on LinkedIn and at github.com/giulio-leone/cv

Languages

Italian: Native

English: C1 – Advanced
